TopAgenda and TopAddress Pro Versions

RubenSoft Software include specialized functions that meet specific needs and interfacing with other applications. In order to adapt our software to the users needs, these functions are activated only in the Pro version.

The software installed on your computer is complete, Pro functions will be hidden or visible depending on the license you have acquired.
Trial version is always a Pro version.
You can purchase a license extension at any time to activate the Pro version.

See below the list of Pro functions of TopAgenda and TopAddress.
